Renovation and Development of **Ministries Complex Buildings**

Client: **Ministry Of Finance**

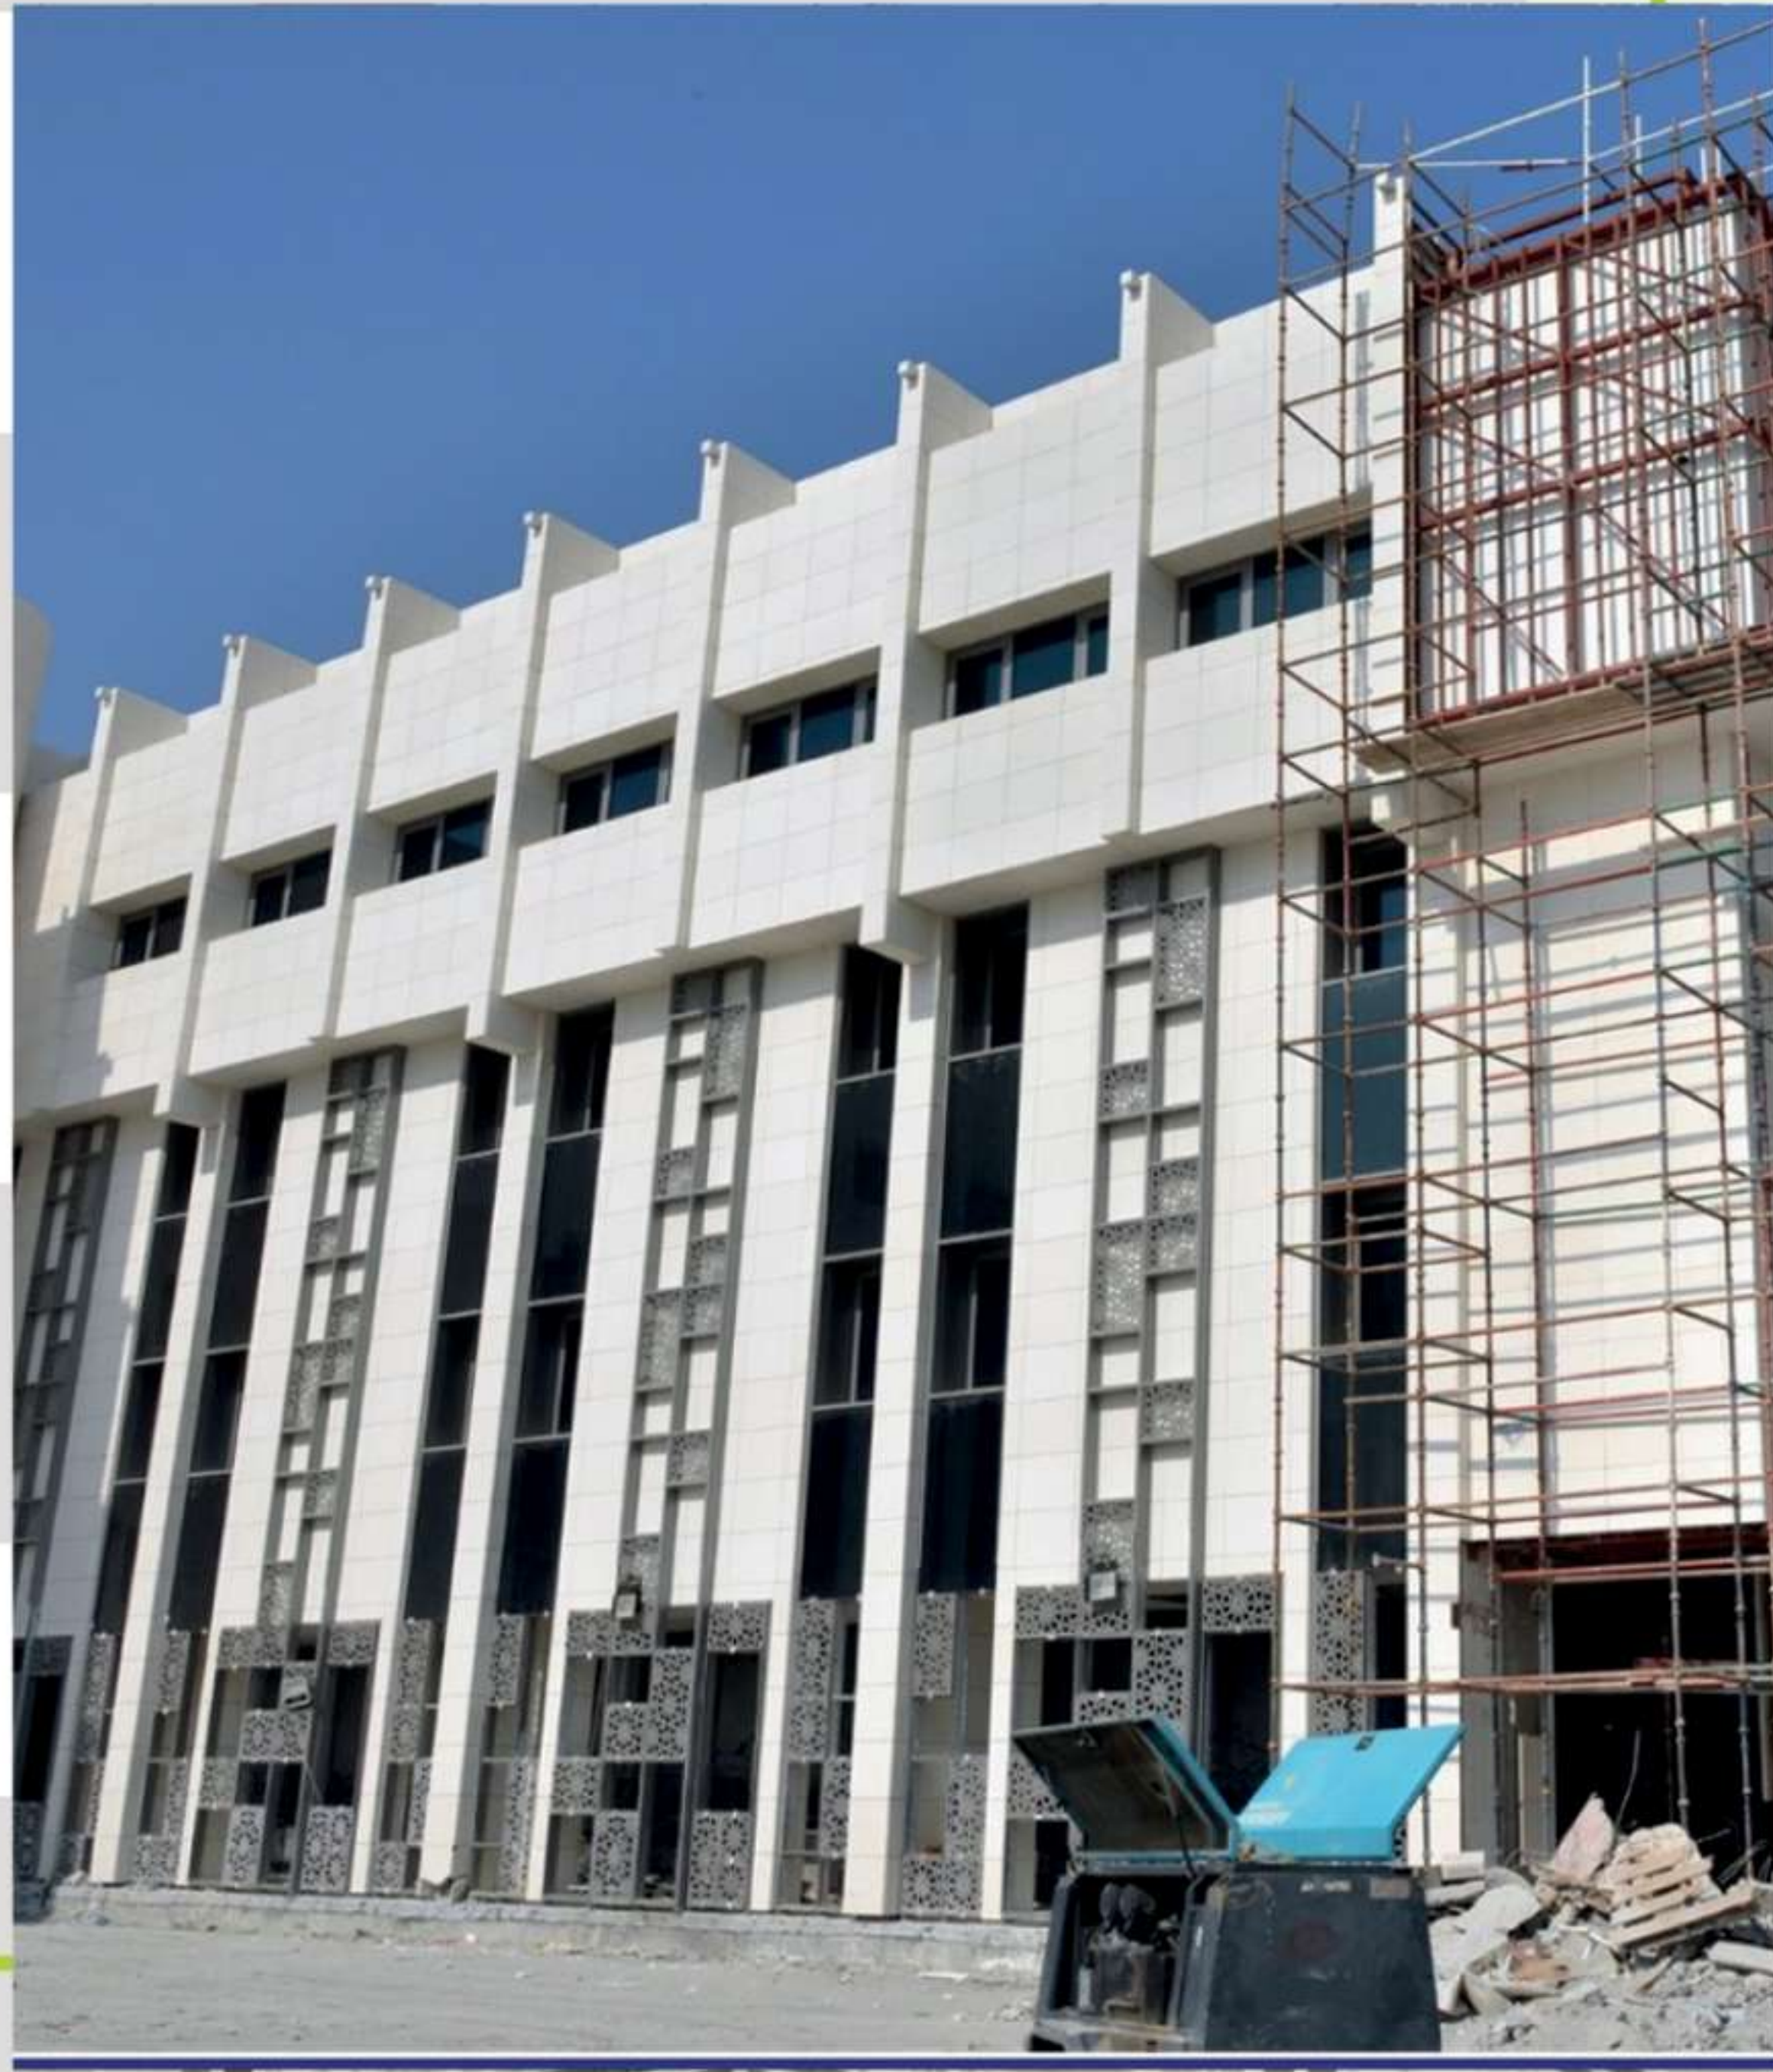

Location: **Kuwait , Kuwait**

Designed By : **JQEC**

Construction manager : **ECG**

Project Coast : **135,000,000\$**

Construction of **Universal Printing Press**

Client: **Amiri Diwan**

Designed By : **SSH**

Location: **Sabhan , Kuwait**

Construction manager : **SSH**

Project Coast : **80,000,000\$**

Construction of Universal Printing Press Building and the Support Facilities covers the latest status and issued to provide a project overview and the history of the project during its life time

ARWA General Contracting Co desires to build new premises to host the printing facilities for its subsidiary daily newspaper AWAN, and commercial/post press HIWAR along with offices and administrative support

The Printing Press lands on a 3000 m² plot, a multiuse building in North Sabhan Industrial District

The building comprise of basement, ground floor, mezzanine and roof with a total build up area of 9,982 m²

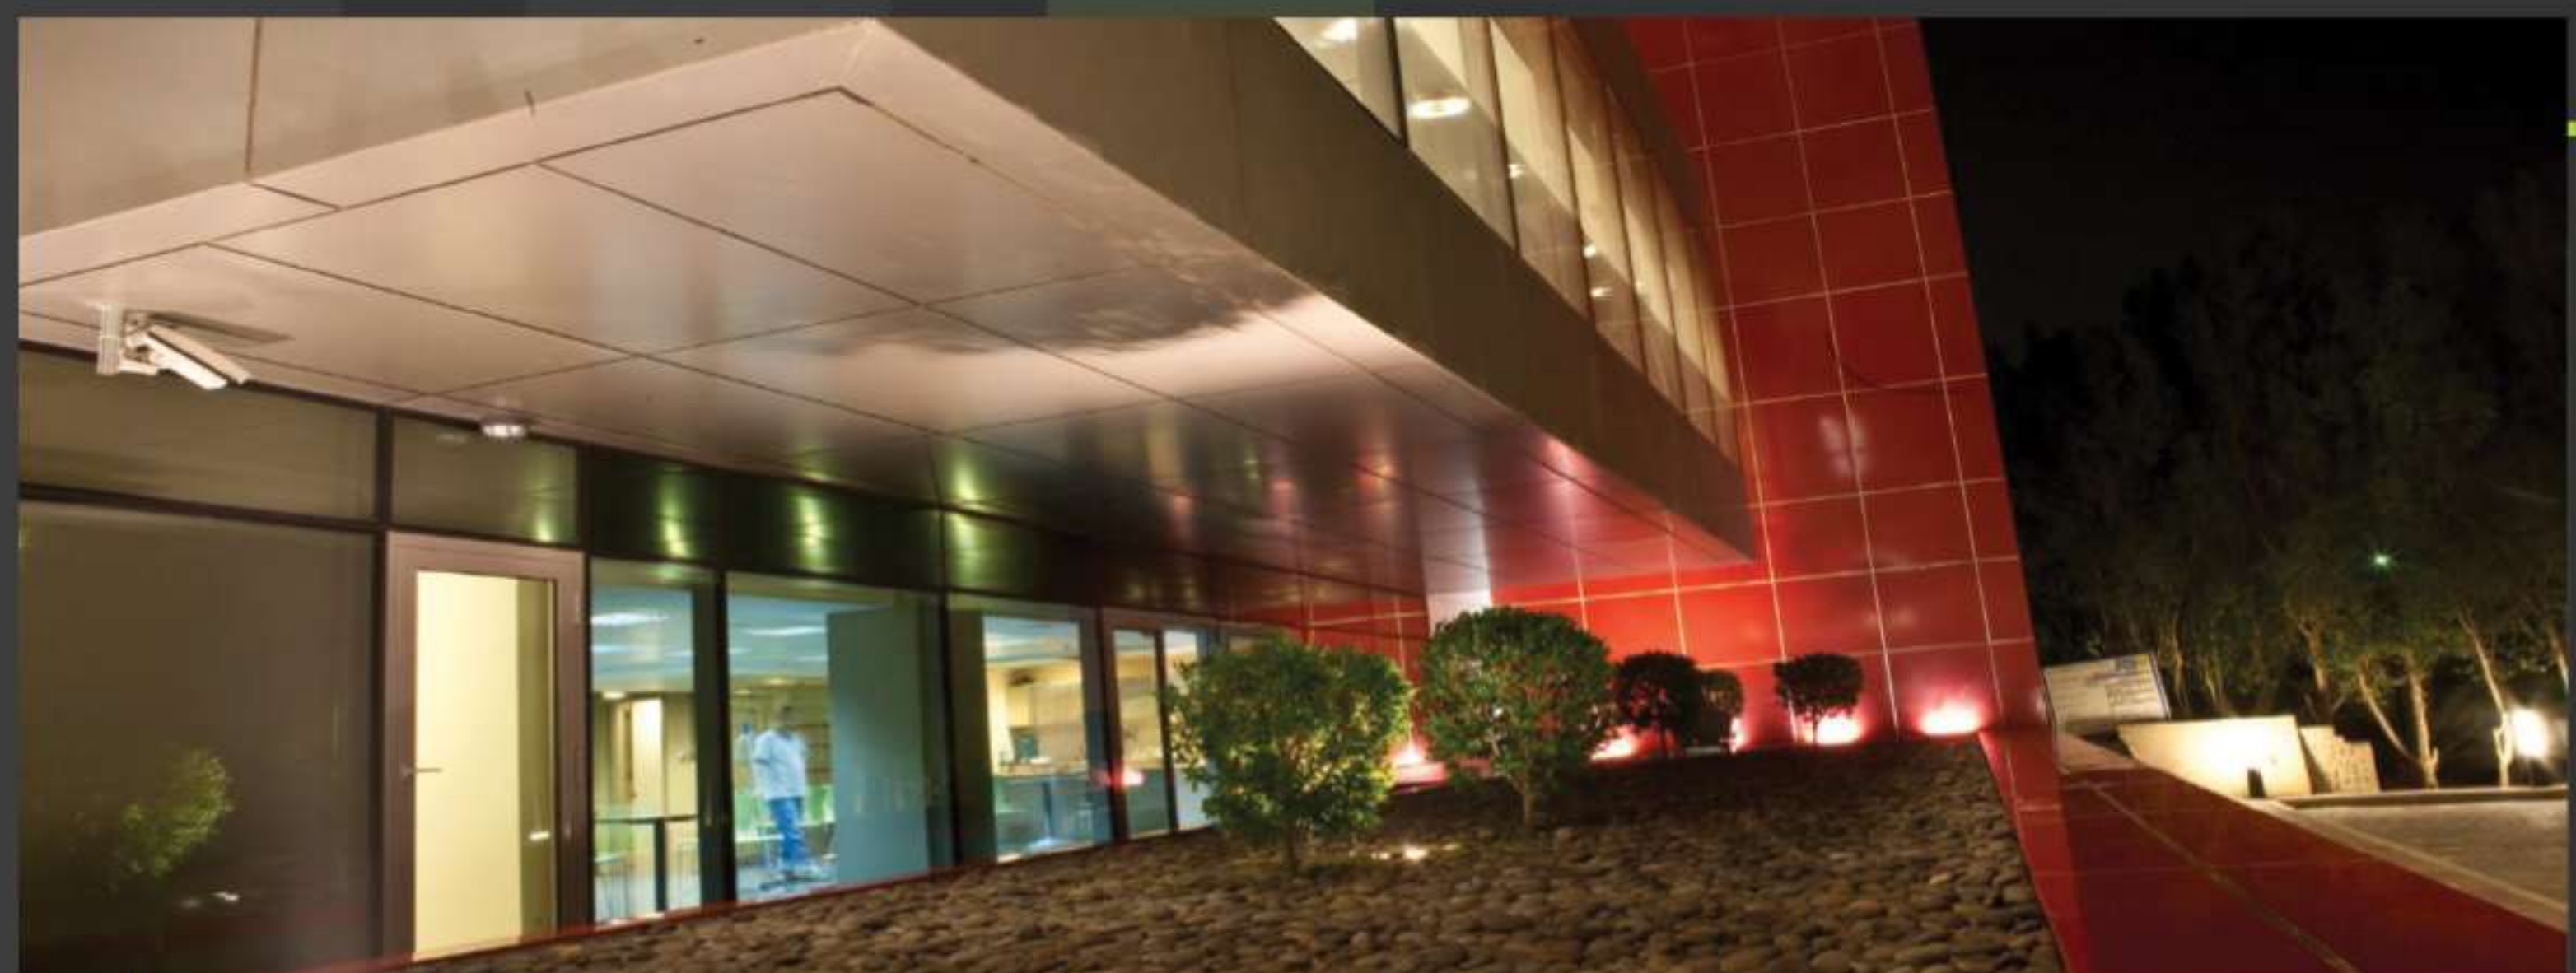

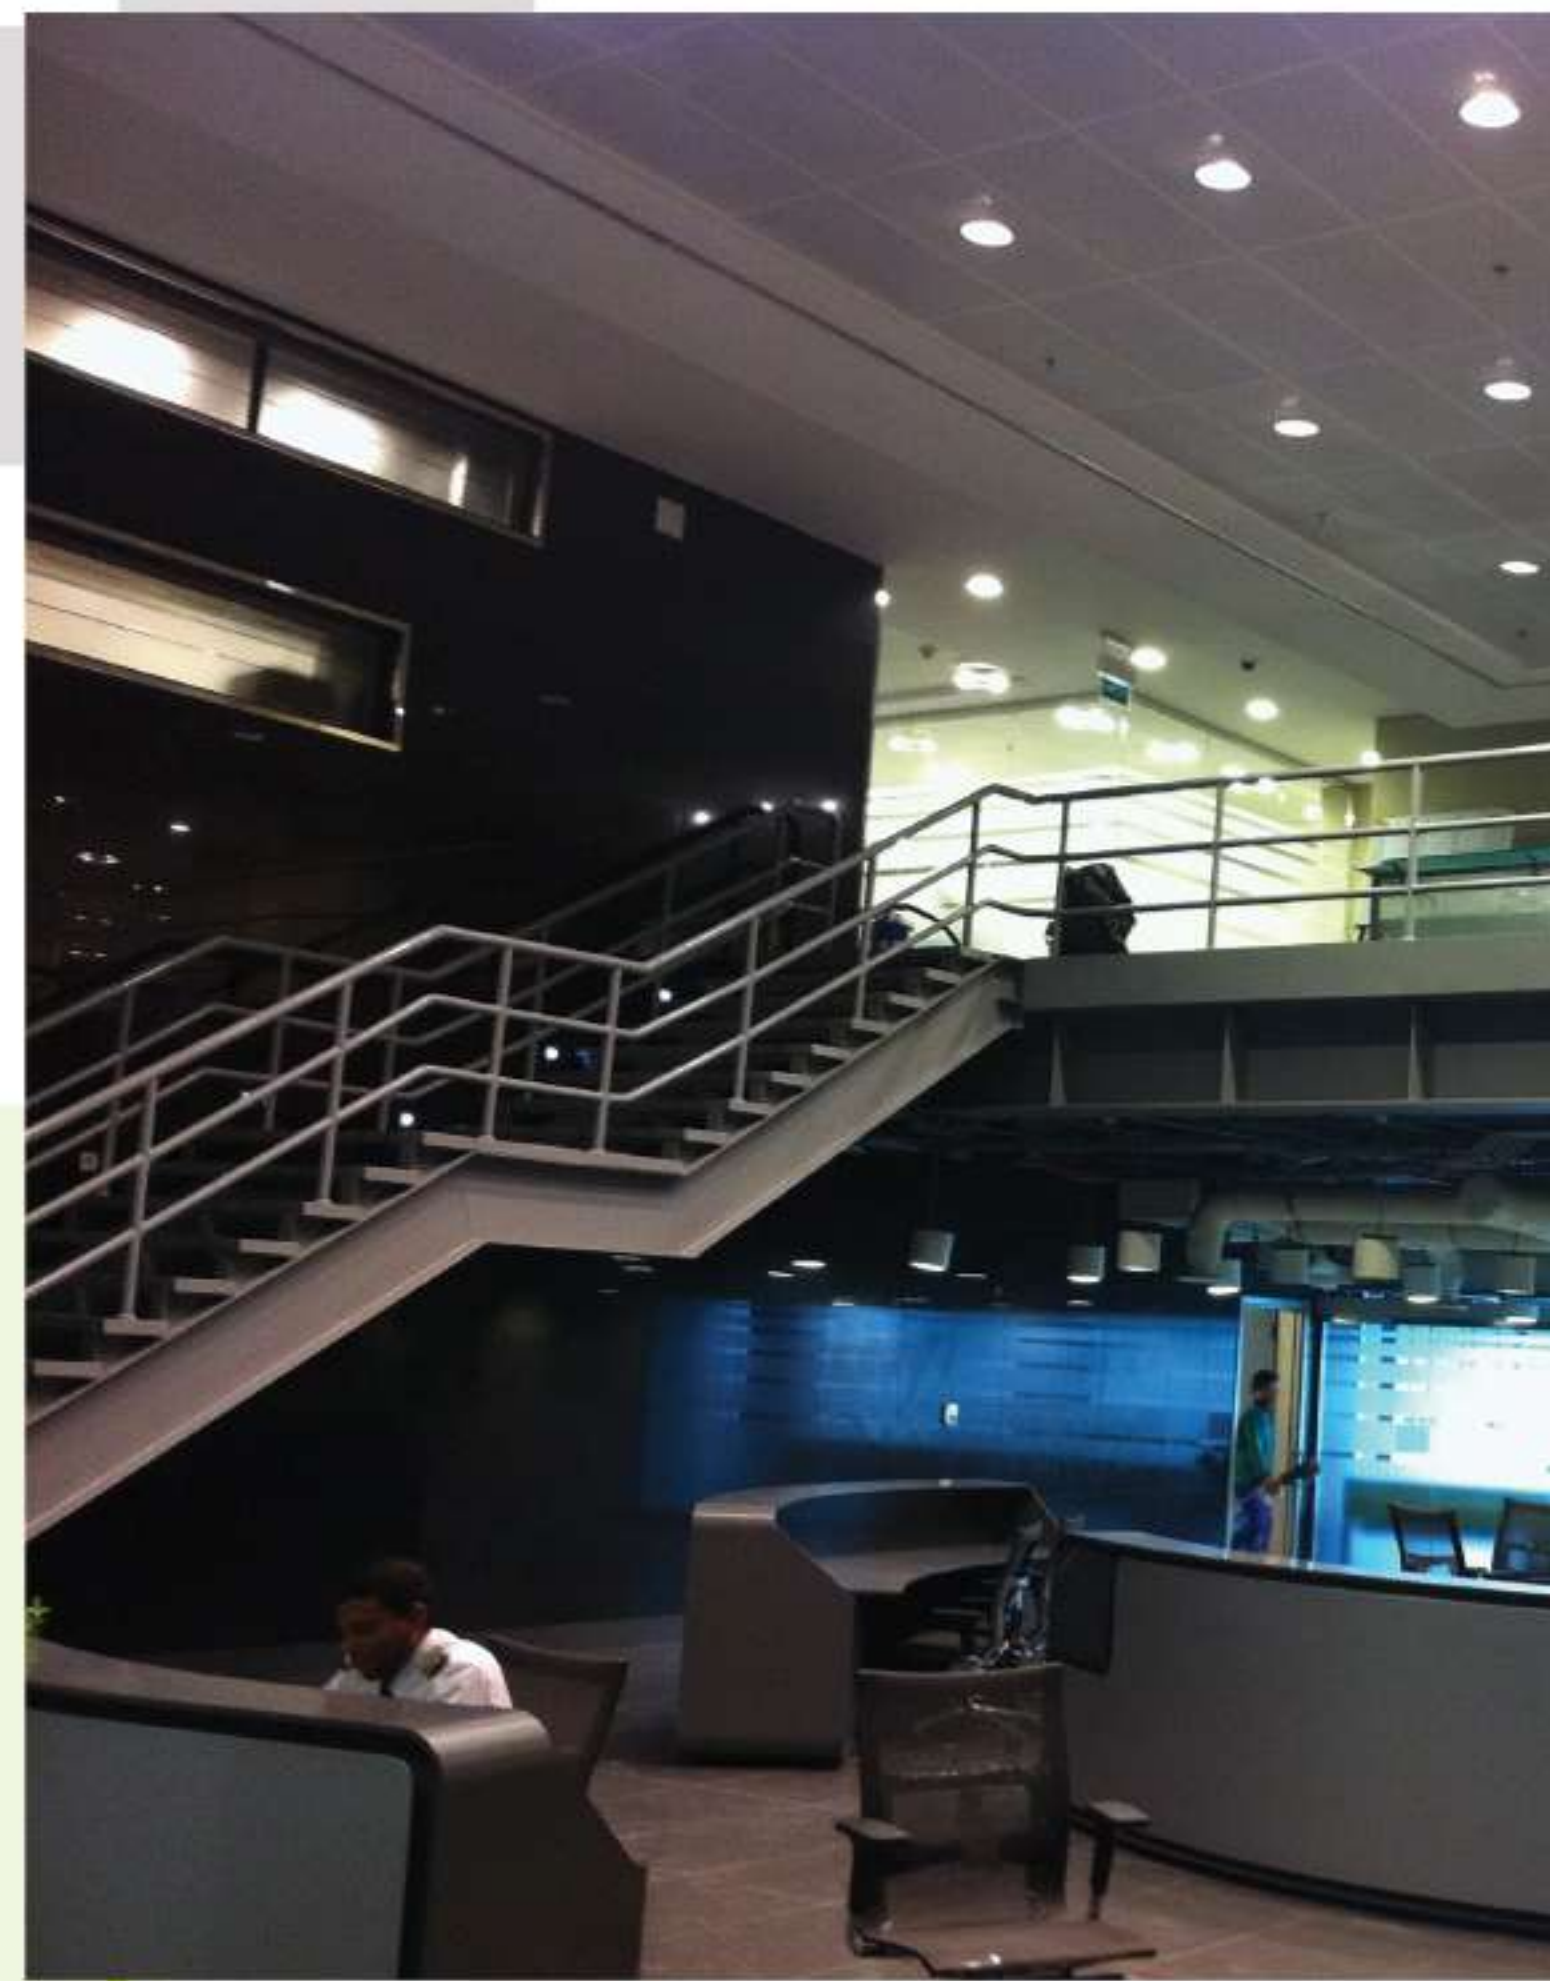

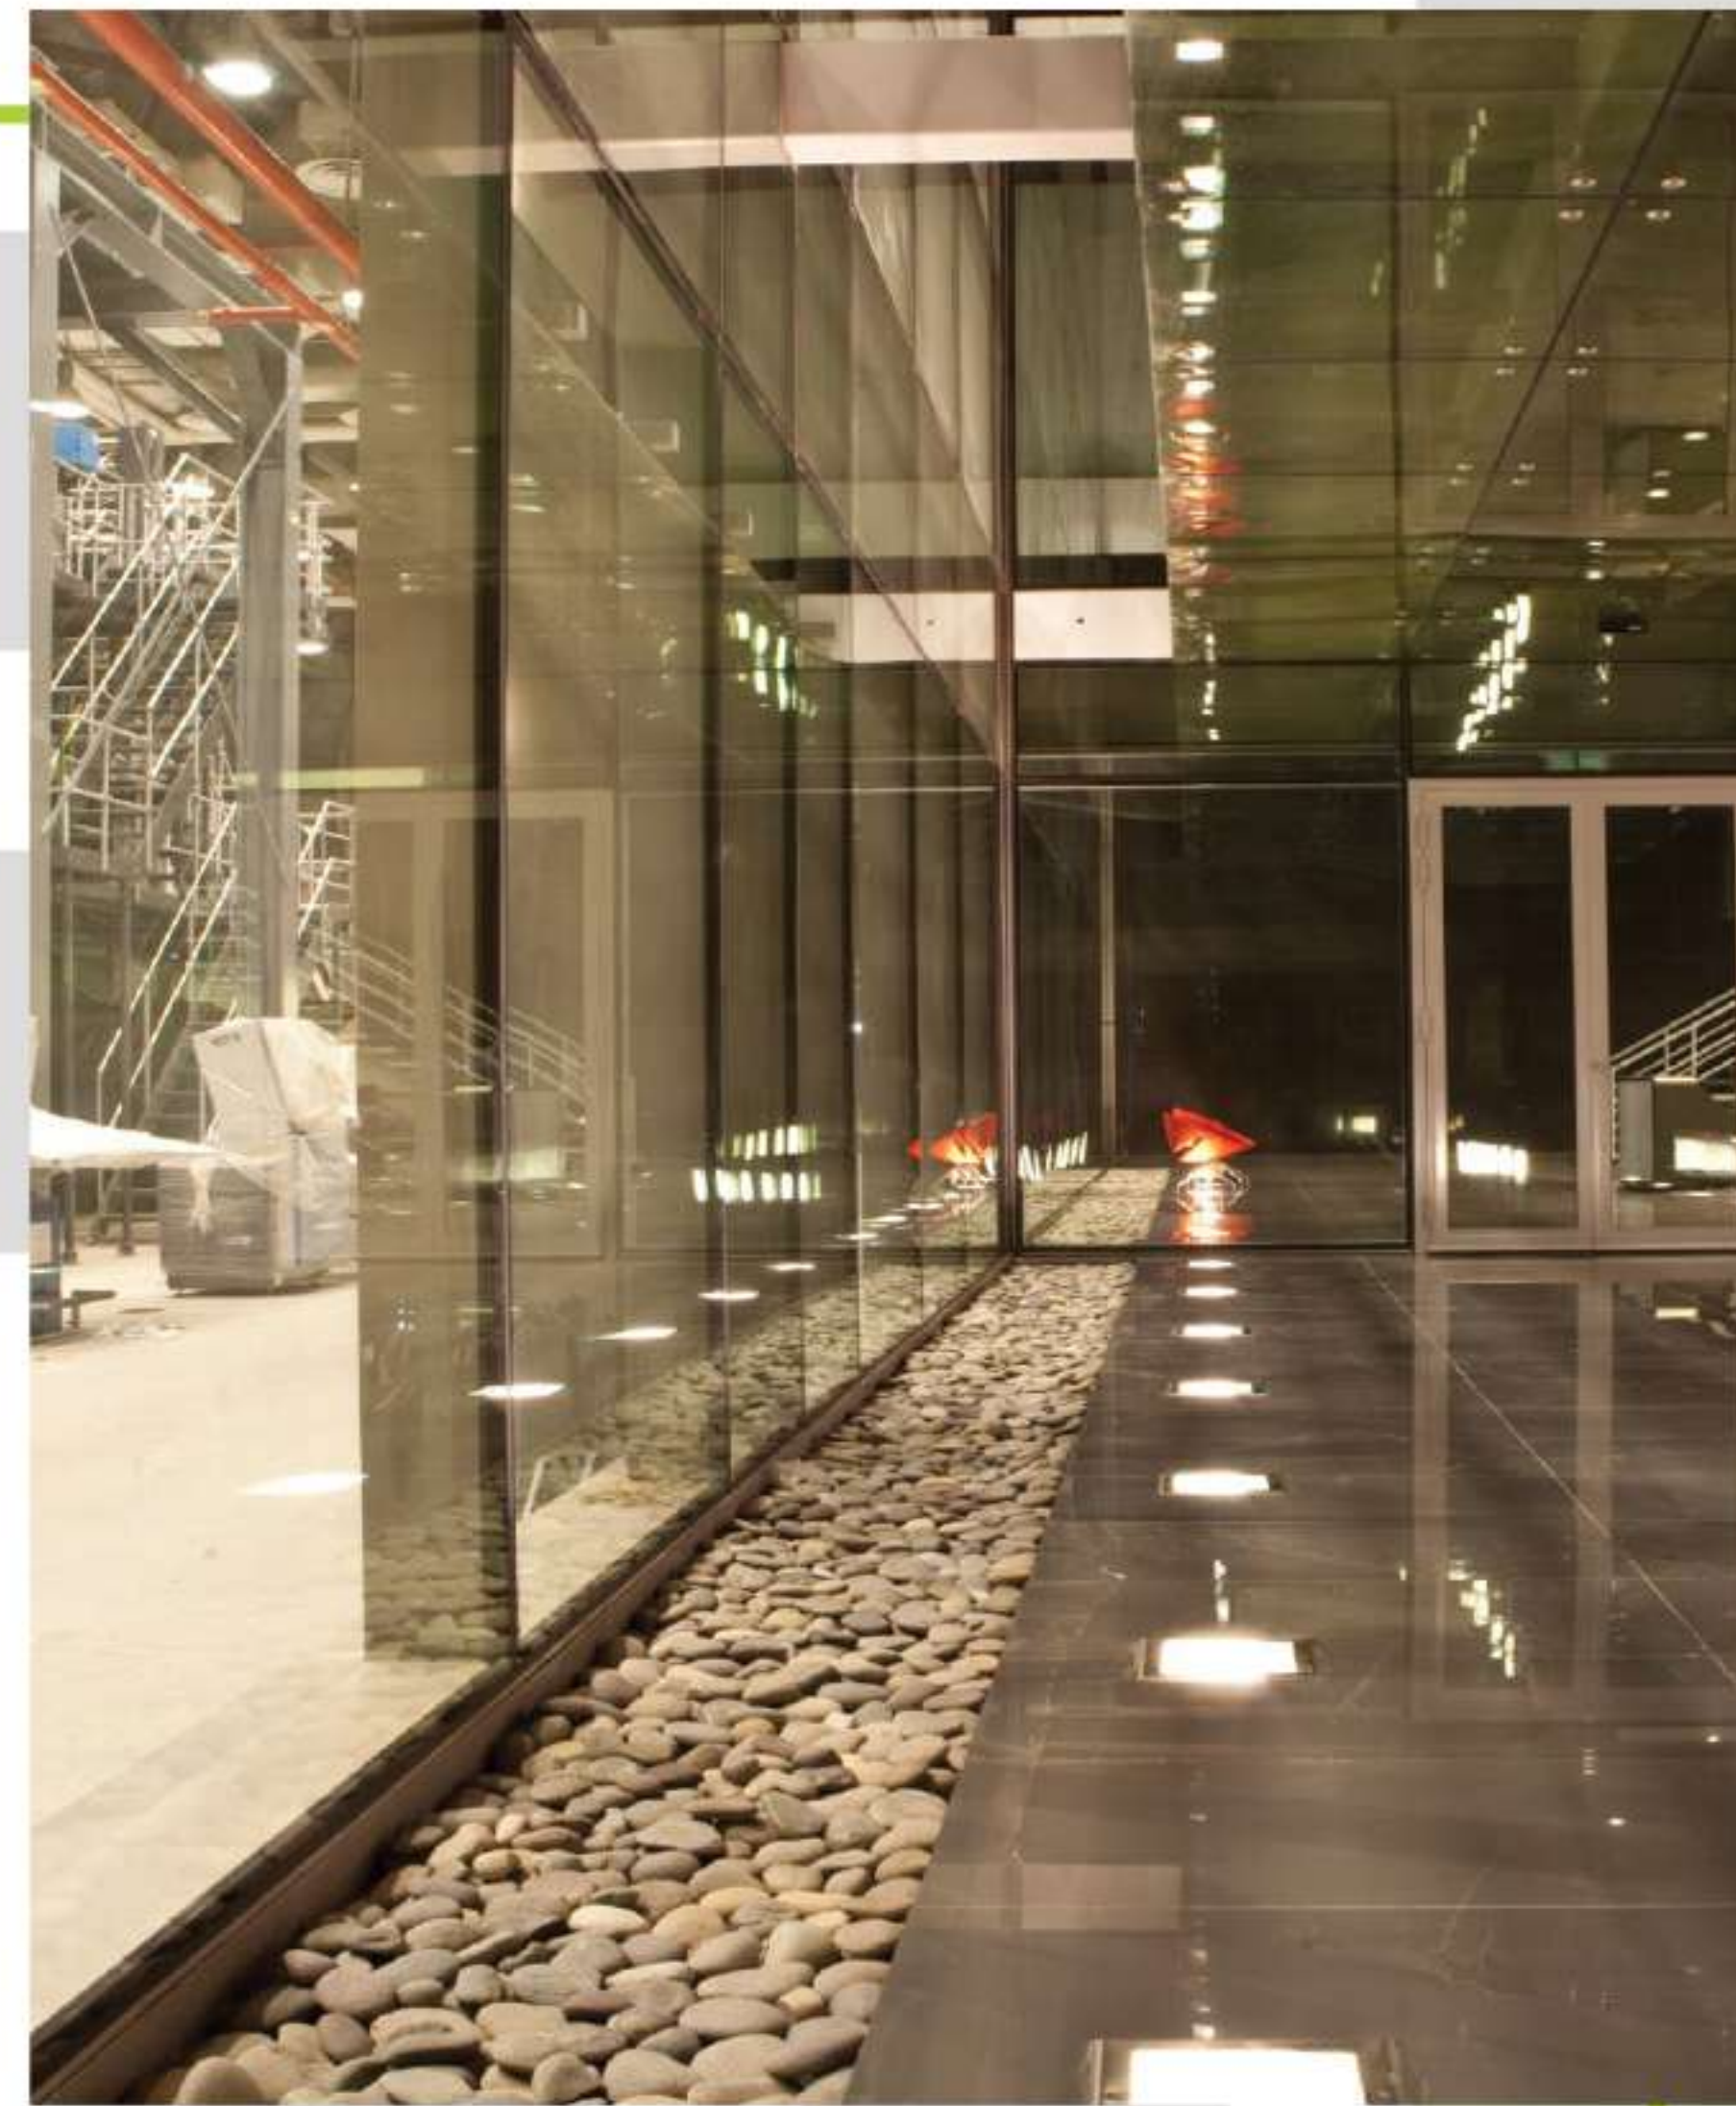

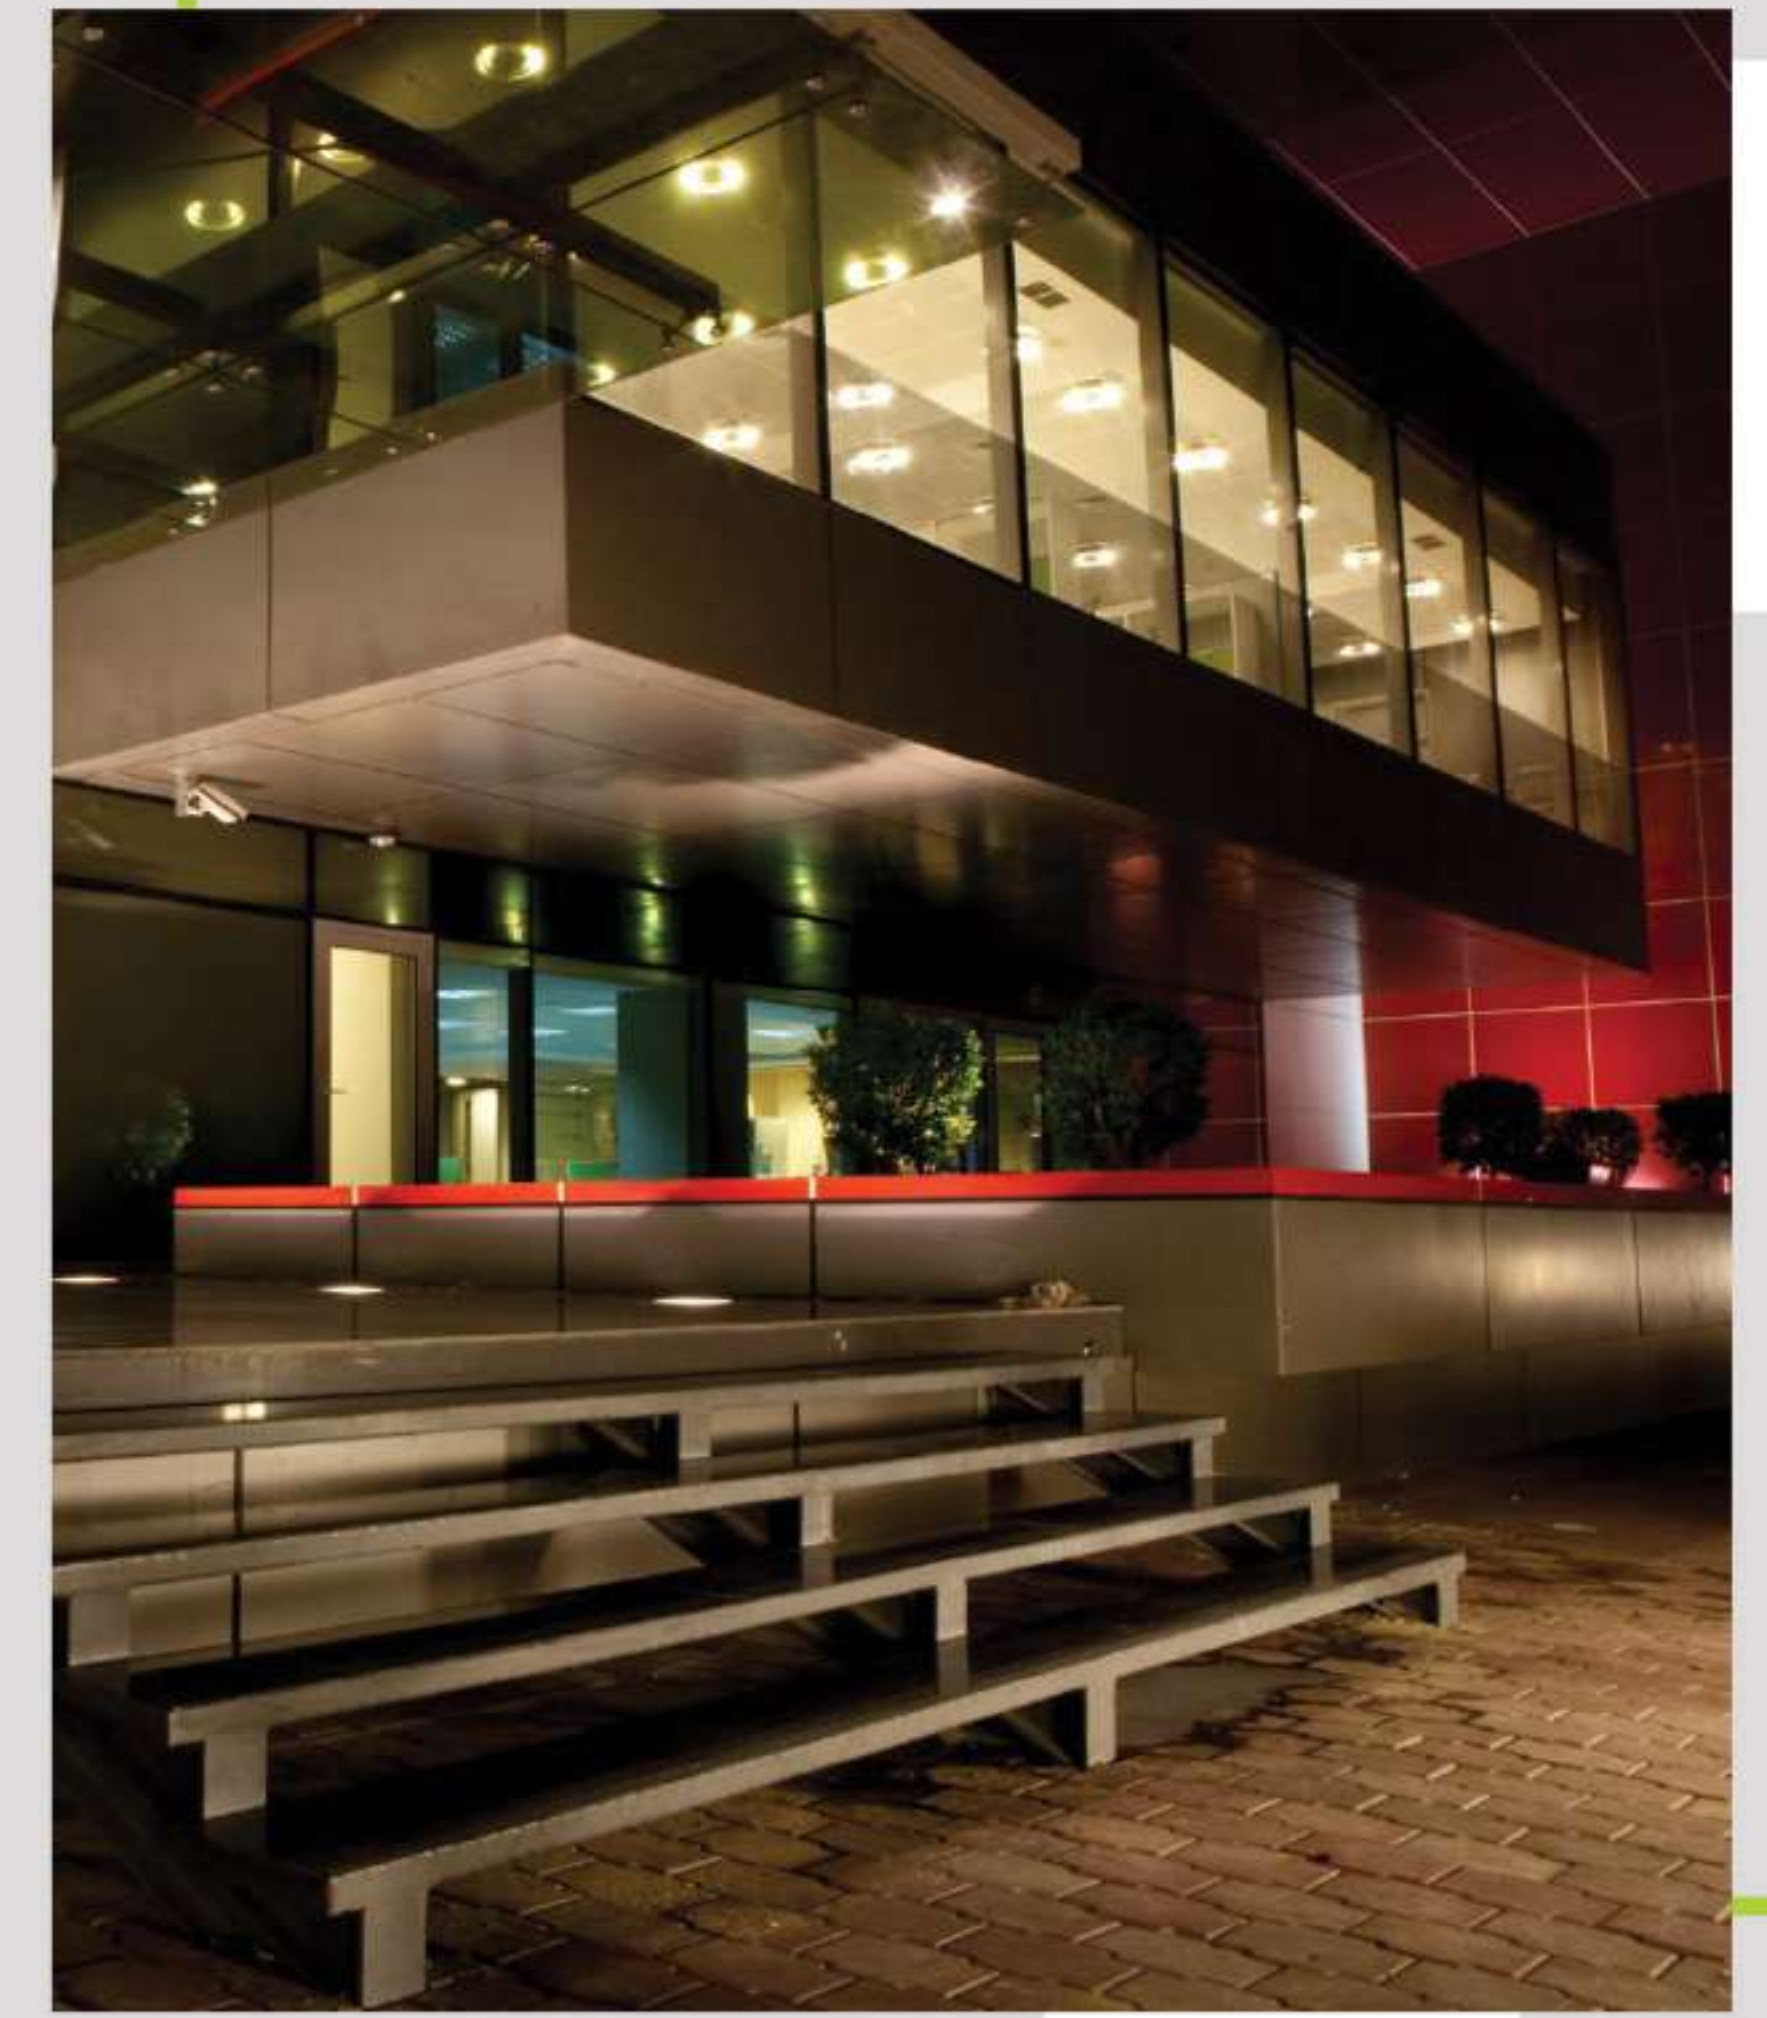

Construction of **Universal Printing Press**

The building consists of 5 Main zones
Web press and reel stand, Commercial
and Post press, Reception, Media hall
and Cafeteria, Offices, Loading and
Services

The building contains a unique and
special web press machine (Goss 7),
first time in Kuwait, five towers for the
cold and heat sets printing, with special
dryer for the heat set all supplied by
M/s. Goss-France, and it can print up to
70,000 news paper colored page in one
hour (50 x 35 cm and Tabloid)

The building also contains a high
quality commercial printing equipment,
folding, cutting, die cut and glowing,
stapling and pending machines with
high speed features up to 25,000 pages
per hour supplied by M/s Heidelberg

What We Believe

Philosophy design

We believe that outstanding architectural design achieves a balance between aesthetics, economy, and function, Excellent design balances and blends time lessness with sensitivity to place, we believe in design which is energy efficient, sustainable and environmentally sensitive

Funcation

Functional design requires respect for user needs and an understanding of their operations and goals, The user must be involved in defining needs, and dialogue between user and designer must be ongoing Our goal is to create spaces and environments which enhance our clients lives and their users' performance

Al-Andalus - Residential Building 118

Client: **Developers Group**

Location: **New Cairo - Egypt**

Designed By : **Hadhoud Consultants**

Construction manager : **Hadhoud Consultants**

Project Coast : **250,000\$**

Economy

To achieve value requires an understanding of costs, materials, and systems, and their appropriate uses Partnering and collaboration, with our consultants and contractors ensures the continuous involvement of cost and delivery specialists in the design process

6 October - Residential Building 562

Client: **Developers Group**

Location: **Al-Shorouq - Egypt**

Designed By : **Hadhoud Consultants**

Construction manager : **Hadhoud Consultants**

Project Coast : **300,000\$**

Aesthetics

To attain high aesthetic standards requires a sensitivity to the project location as well as an understanding of space, form, scale, and proportion. We have proven our ability to achieve high aesthetic standards by the quality of our built work

6 October - Residential Building 1337

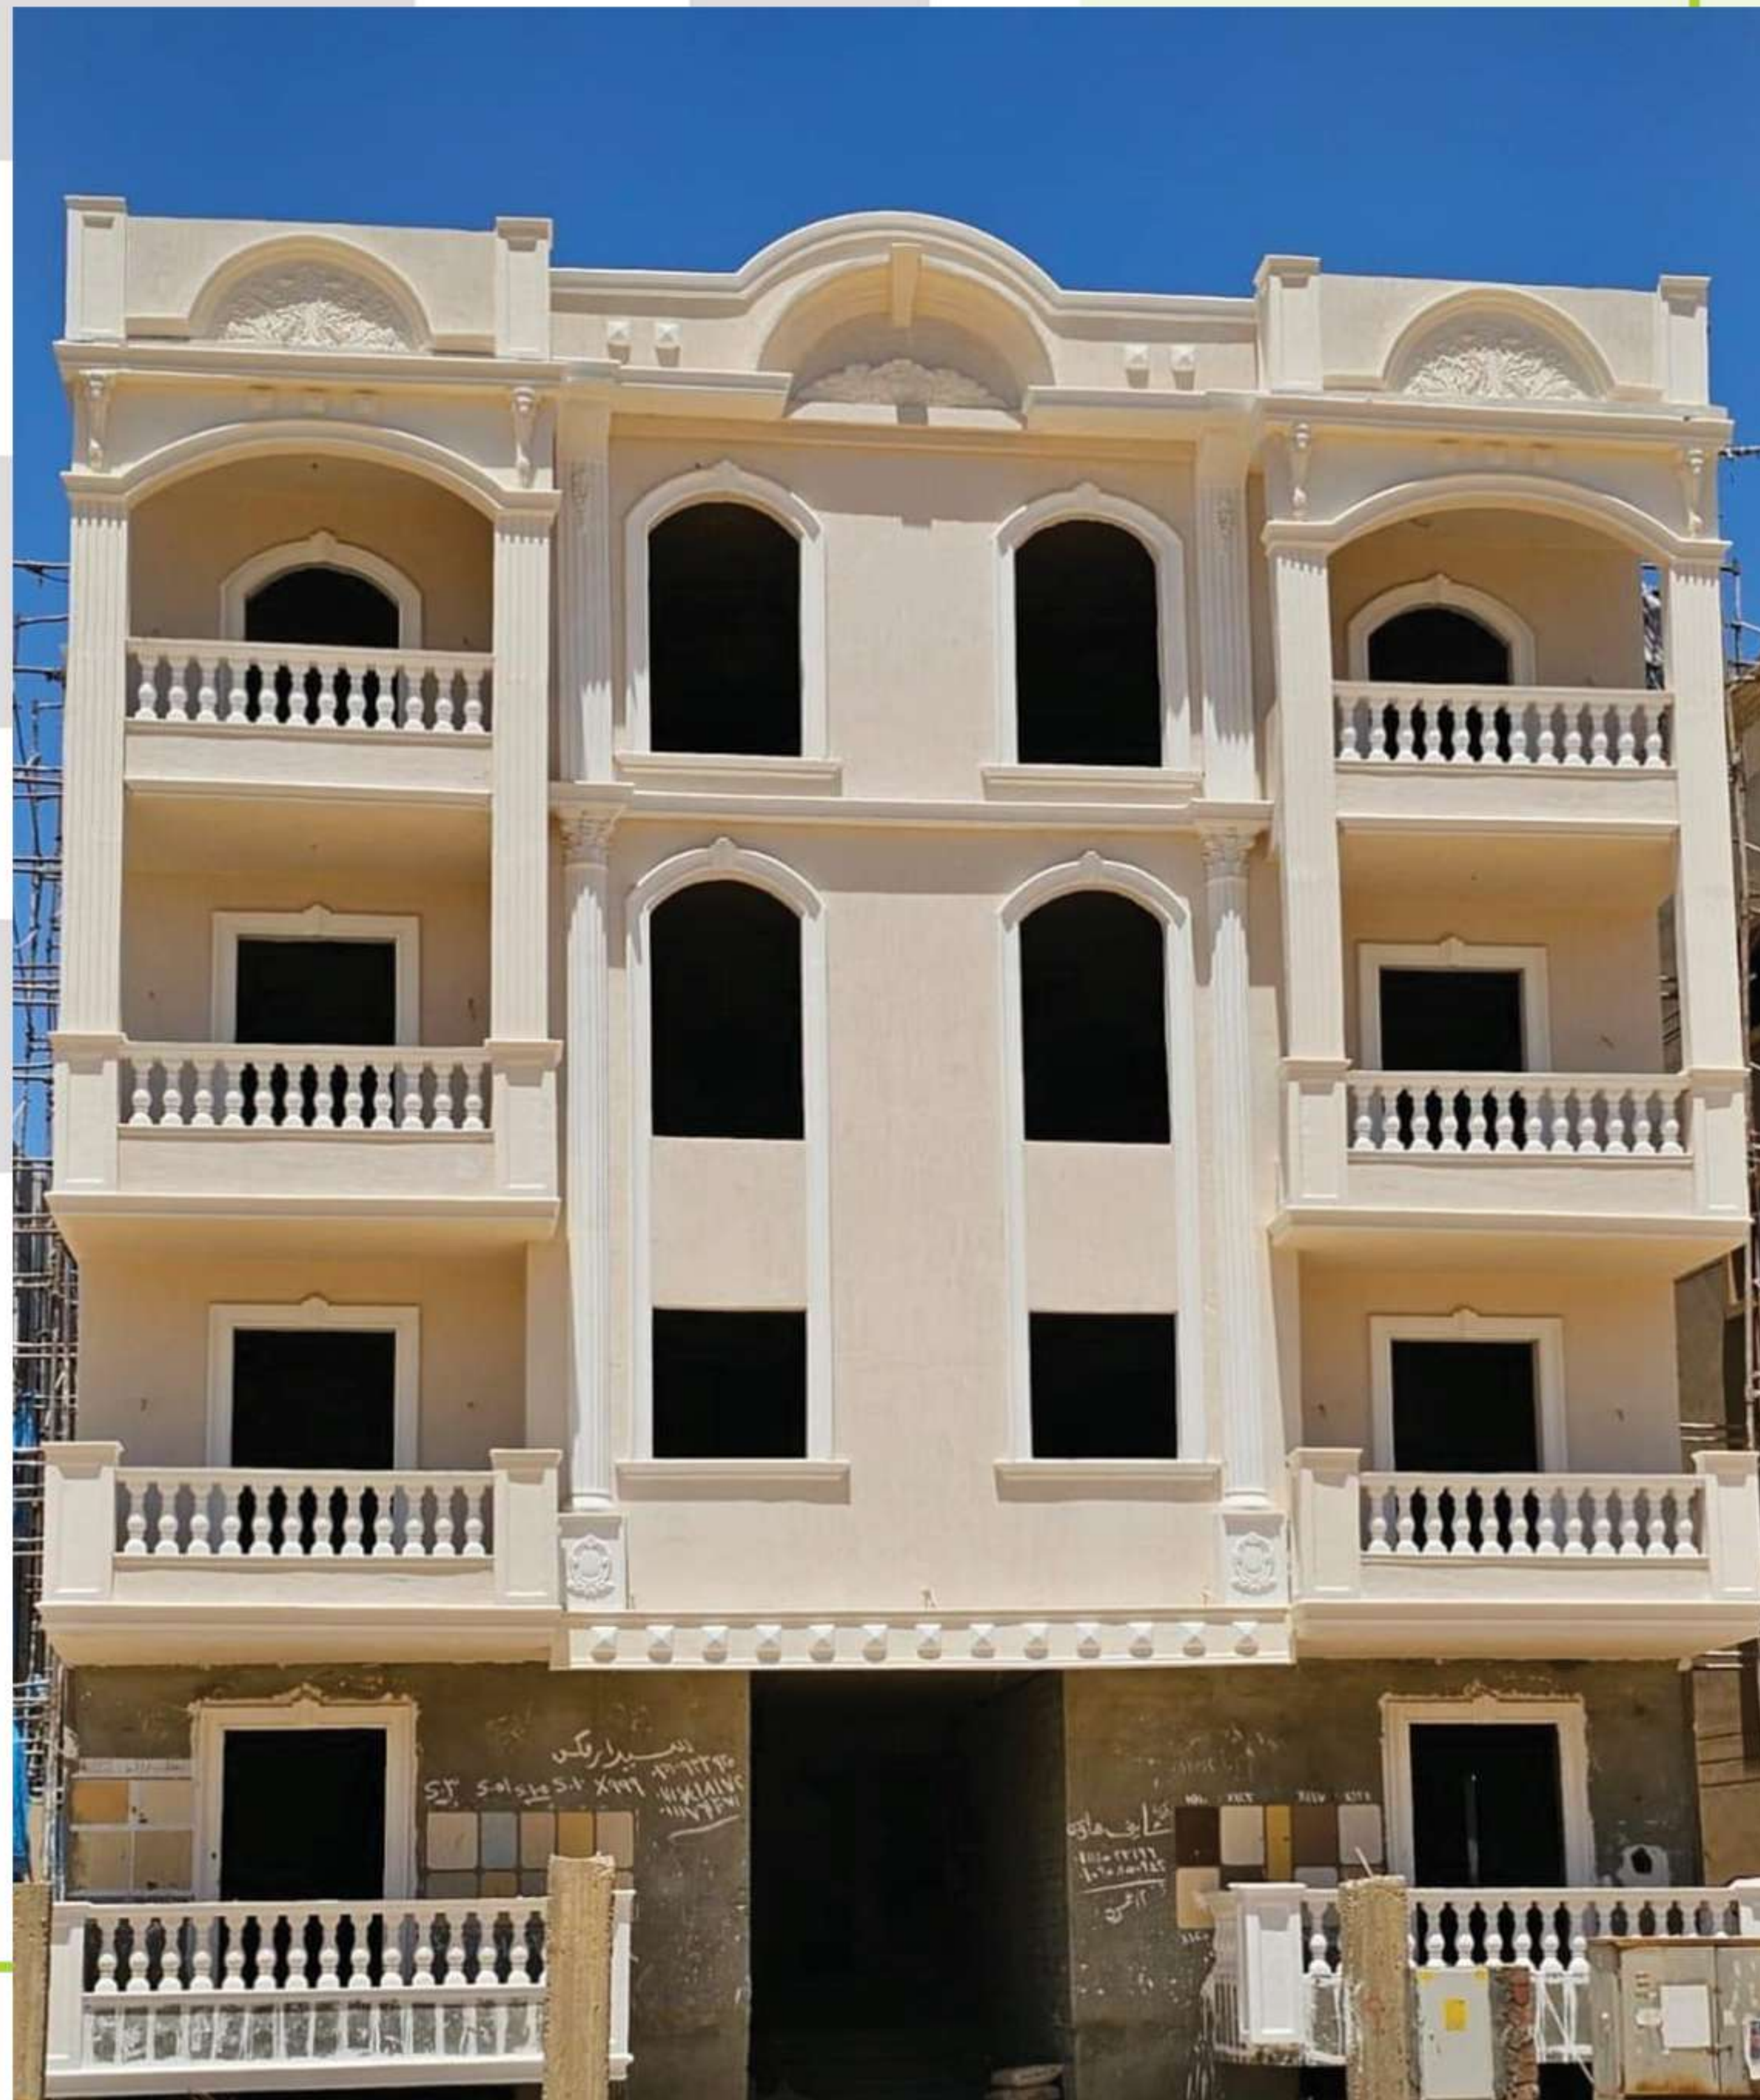

Client: **Developers Group**

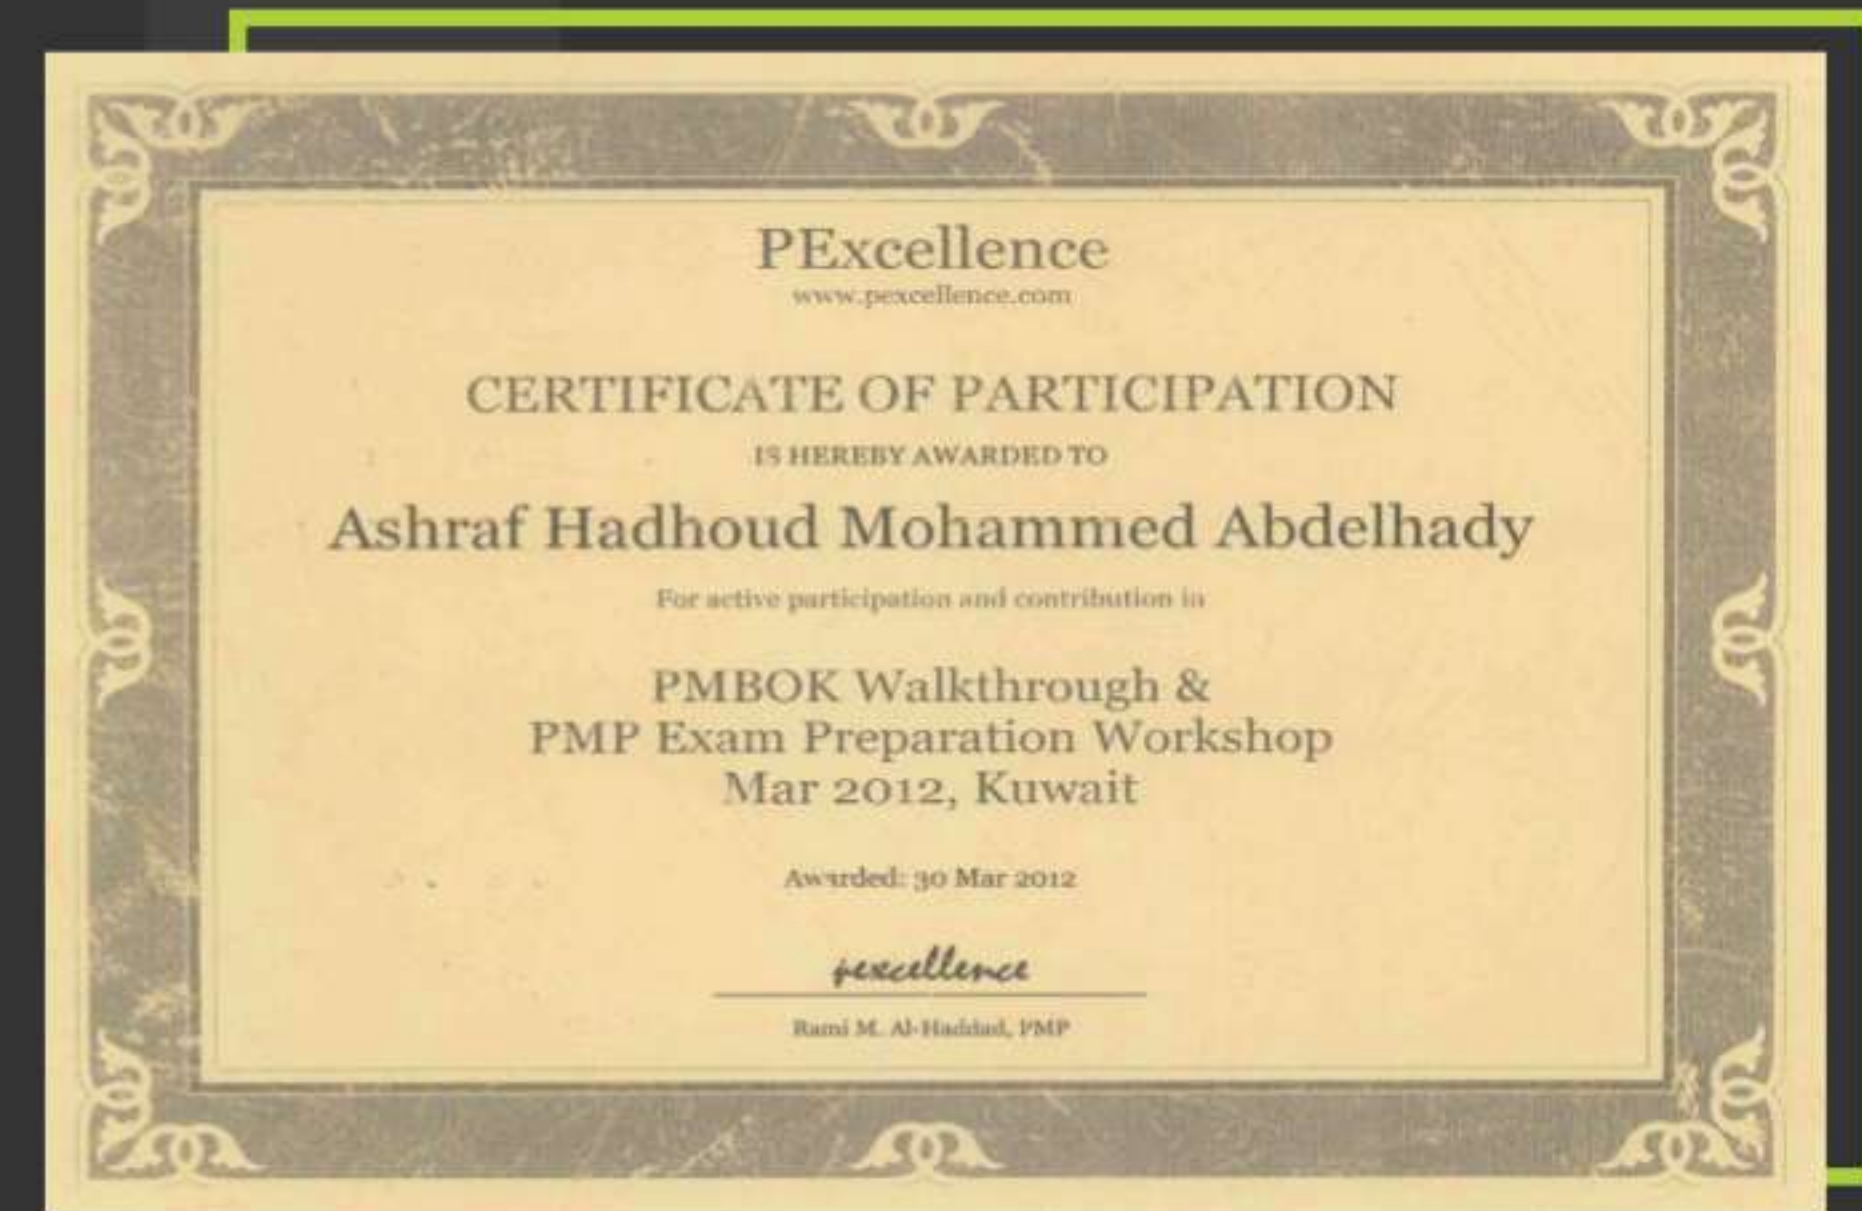

Location: **October City - Giza**
